

SUMIT BABASAHEB GAGARE

MBA Finance | +91 9881819333 | sumit24ga@gmail.com | [Linkedin](#) | Mumbai, India

Data management and ERP consultant with Industry wide consulting experience across manufacturing, logistics, technology, and consumer goods. Contributed to **8+ client-facing engagements at Contetra** spanning ERP implementation, MDM governance, process diagnostics, and BI reporting, while independently building **3 AI-powered automation tools** that reduced operational effort, time and improved data quality. Strong in **Power BI, SAP S/4HANA, ERPNext, and Advanced Excel, Agentic AI**. Experienced in working directly with senior leadership and client stakeholders across operations, technology, and finance functions.

PROFESSIONAL EXPERIENCE

Contetra Private Limited, Mumbai

June 2025 – Present

Executive – Digital Transformation & Automation

ERP implementation and data management consultancy serving clients across Manufacturing, EPC, Trading, Technology, Logistics, and Consumer Goods. Contributed to senior-led engagements on process design, ERP implementation, and operational redesign while independently designing and deploying AI-powered tools and automated BI reporting solutions. Worked directly with operations, technology, and finance teams across all client engagements.

Process Design & Operations

- **EPC and Water Technology client** - Led end-to-end ERP transformation initiatives including AS-IS/TO-BE process mapping, SAP ECC re-implementation, Master Data Management (MDM) deduplication, CRM deployment, and Document Management System (DMS) rollout; contributed to PMO design and implementation - SOP drafting and approval workflow mapping. Redesigned the O&M billing confirmation workflow, reducing the billing cycle from **25–30 days to 7 days**, improving collections speed and financial accountability.
- Led AS-IS diagnostic and process discovery engagements, mapping finance and operations workflows across O2C, P2P, R2R, Master Data, H2R, ERP configuration, and reporting functions to identify process gaps, inefficiencies, control weaknesses, and automation opportunities, while providing actionable recommendations and future-state process improvement roadmaps.
- Designed **TO-BE process workflows, SOPs, and improvement roadmaps** for multiple client engagements - producing structured documentation, approval matrices, and recommendations delivered to senior leadership and client stakeholders.
- **Fan manufacturing company** - Conducted AS-IS process diagnostics across manufacturing and operational functions to identify process inefficiencies, people and capability gaps, control weaknesses, and automation opportunities; developed improvement recommendations and designed TO-BE workflows to drive process standardization, operational efficiency, and digital transformation.
- **Plastic products importer and distributor** - Led B2B and D2C sales process diagnostics across imported product lines, identifying process inefficiencies, channel management gaps, and automation opportunities; designed ideal sales workflows and developed Power BI dashboards to improve sales visibility, inventory planning, and business performance reporting (Project Manager).

AI & Automation

- Built an **AI-powered MDM governance tool** across SAP S/4HANA and ERPNext - establishing deduplication rules, validation checkpoints, and master data SOPs, **reducing duplicate records by ~60% and data entry errors by ~35%** across business units.
- Designed an **AI-powered Ticketing & Support Tool** - centralising issue logging, SLA tracking, status updates, and escalation visibility across **20+ active clients**, eliminating manual Excel-based tracking across the operations function.
- Automated supplier invoice data extraction using an **OCR + AI integration pipeline** - eliminating manual data entry for high-frequency finance transactions and improving data quality at point of entry across the procurement workflow.
- Deployed a **SaaS Document Management System** - centralising and digitising document workflows, eliminating paper-based processes, and improving retrieval efficiency across client teams.
- Supported delivery of a **stalled Power BI automation project** - contributing to root cause diagnosis and solution implementation, resulting in on-time delivery with full client sign-off.
- Automated end-to-end salary slip generation and distribution for 60 employees by developing an **Excel VBA macro** that pulled data from a master sheet, populated individual slip templates, exported PDFs to designated folders, and triggered personalized **emails via MS Outlook** Classic in a single click - reducing a **3-day** manual process to under minutes.
- Built **FinSight**, a zero-backend financial BI platform that converts raw Tally ERP exports into a board-ready CFO dashboard suite - auto-classifying 4,600+ ledger accounts via a rule-based GL mapping engine and generating P&L, Balance Sheet, Treasury, and aging reports with one-click Excel/HTML exports - cutting monthly management reporting from 2–3 days to under 60 seconds, with all financial data processed entirely client-side.

MIS, Analytics & Reporting

- Built automated **Power BI dashboards and SQL-based reporting pipelines** connected to ERP data-marts - enabling self-serve, real-time data visibility for senior leadership and **reducing manual reporting effort by ~40%**, eliminating approximately one month of manual reporting effort for a technology services client.
- **Consumer goods manufacturer** - MDM audit, data quality diagnostic, structured improvement recommendations and support for the SAP S4hana system.
- **Hydraulics manufacturer** - Power BI reporting automation and operational dashboard maintenance.

Dealsquard Pvt Ltd, Mumbai

May 2024 – July 2024

Finance & Growth Intern

- Built a **3-scenario financial model for market entry** - covering revenue forecasting, cost analysis, and expansion planning to support the leadership team's go/no-go investment decision.
- Performed quantitative data analysis across **10,000+ row datasets** using pivot tables, VLOOKUP, and financial formulas to identify market trends and surface actionable insights for senior stakeholders.

EDUCATION

Master of Business Administration – Finance

Aug 2023 – June 2025

Mumbai University | Mumbai, India

SKILLS & ACHIEVEMENTS

- **Data Management & ERP:** MDM, Data Quality Frameworks, Data Lineage Documentation, SAP S/4HANA, SAP ECC, ERPNext, Dynamics 365 BC, CRM Implementation, ERP Configuration, Microsoft Fabric
- **Analytics & Reporting:** Power BI, SQL / MySQL, Advanced Excel (Pivots, VLOOKUP, Financial Formulas), Automated Reporting Pipelines, MIS Dashboards
- **AI & Automation:** AI Tool Development, OCR Automation, AI-powered Workflow Automation, LLM / Generative AI Integration, Process Automation, Google Workspace
- **Program Management:** Requirements Gathering, Process Mapping, Milestone Tracking, Sprint Planning, Stakeholder Management, Cross-functional Coordination
- **Finance:** Financial Modelling, FP&A, B2B Pipeline MIS, Equity Derivatives (NISM Series VIII), Mutual Funds (NISM Series V-A)

Certifications: Microsoft Power BI: Data Visualization and Reporting | Advanced Excel: Financial Modelling | Python (Basic Level)
