– Procure-to-Pay (P2P) – Order-to-Cash (O2C) – Bank Reconciliation – Financial Reporting – Process Standardization – Finance Automation	– ERP Implementation – SAP S/4HANA – ERPNext – MS Dynamics 365 BC – SAP ECC – CRM / DMS – UAT	– Business Analysis – Discovery Workshops – AS-IS / TO-BE Mapping – Gap & Root Cause Analysis – SOP Development – PMO Coordination – Stakeholder Management	– Power BI – SQL / MySQL – Python – OCR Automation – LLM Integration (Gemini, Claude) – Excel VBA

PROFESSIONAL EXPERIENCE

Executive – Digital Transformation & Automation

Contetra Private Limited | Mumbai June 2025 – Present

Finance Transformation & Business Consulting

- Delivered consulting engagements across Manufacturing, EPC, Logistics, Trading, Technology, and Consumer Goods organizations, supporting business process transformation and ERP modernization initiatives.
- Conducted discovery workshops with CEOs, CFOs, Plant Heads, and business stakeholders to understand operational challenges, gather business requirements, and define transformation roadmaps.
- Led AS-IS process mapping, TO-BE process design, gap analysis, and root cause assessments across finance, procurement, logistics, sales, project management, and master data functions.
- Prepared business process documentation, SOPs, governance frameworks, approval workflows, and implementation roadmaps supporting enterprise-wide digital transformation initiatives.

ERP Transformation & Master Data Governance

- Contributed to ERP transformation initiatives across SAP S/4HANA, ERPNext, Microsoft Dynamics 365 Business Central, SAP ECC, and Tally environments through business analysis, documentation, process validation, UAT, and functional support.
- Led Master Data Governance initiatives involving vendor, customer, cost center, and profit center standardization, improving reporting consistency and enterprise data quality.
- Redesigned billing confirmation workflows for a listed EPC organization, reducing billing turnaround from **27 days to 7 days** through process redesign and operational standardization.
- Supported CRM implementation, Document Management System (DMS) rollout, license optimization, and centralized PMO tracking for enterprise transformation programs.

AI Solutions & Intelligent Automation

- **Designed and developed FinSight**, an AI-enabled financial reporting platform that converts raw Tally Trial Balance and Day Book data into executive-ready financial reports with AI-generated insights, reducing monthly reporting effort from **1–3 days to approximately 30 minutes**. Leveraged Python, HTML, Gemini API, Claude API, and AI-assisted development tools. The platform generates automated P&L analysis, treasury reconciliation, management commentary, profitability reporting, and month-end close dashboards.
- Developed an AI-powered Intelligent Document Processing (IDP) solution that automatically extracts structured data from invoices, purchase orders, GRNs, and supporting documents, significantly reducing manual document review and improving finance transaction processing.

- Designed and deployed a centralized support management platform replacing Excel-based issue tracking with a client portal featuring SLA monitoring, issue lifecycle management, and executive reporting.
- Engineered an AI-powered Master Data Validation platform that automated duplicate detection, validation, and quality assessment across vendor and customer master data.

Business Intelligence & Reporting

- Designed executive Power BI dashboards by translating business requirements into KPI frameworks and SQL-backed reporting solutions, improving visibility into financial and operational performance.
- Delivered analytics solutions supporting employee performance monitoring, operational reporting, finance reporting, and executive decision-making.
- Built SQL-based data models and stored procedures to support reporting automation and complex KPI dashboards.

SELECTED CONSULTING ENGAGEMENTS

Listed EPC & Water Technology Company (₹600+ Cr Revenue)

- Conducted enterprise process discovery across EPC, Operations & Maintenance, and Trading divisions.
- Designed AS-IS and TO-BE business process models.
- Supported CRM implementation, DMS rollout, and Master Data Governance.
- Established centralized PMO reporting and project tracking.
- Reduced billing turnaround from **27 days to 7 days** through workflow redesign and process optimization.

Manufacturing Process Diagnostic

- Performed enterprise process assessments and mapped business workflows.
- Identified people, process, and system gaps through structured gap analysis.
- Delivered executive presentations with prioritized improvement roadmaps.

IT Services Organization

- Designed KPI-driven Power BI dashboards using SQL-backed datasets.
- Developed reporting frameworks to improve workforce performance visibility and executive decision-making.

Specialty Chemicals Manufacturer

- Led Master Data Management initiatives and SAP S/4HANA support.
- Standardized master creation workflows and strengthened validation controls for enterprise data quality.

KEY ACHIEVEMENTS

- Delivered **8+ consulting engagements** across multiple industries.
- Worked directly with CEOs, CFOs, Plant Heads, and senior business stakeholders.
- Reduced enterprise billing cycle from **27 days to 7 days**.
- Reduced financial reporting effort from **1–3 days to approximately 30 minutes** through AI automation.
- Developed **4+ AI-powered business solutions** for finance and operations.
- Prepared **6+ SOPs, 5 BRDs**, and multiple AS-IS / TO-BE process maps.
- Supported **100+ business users** across finance, procurement, logistics, sales, IT, and operations.

EDUCATION

Master of Business Administration (Finance)

University of Mumbai | 2023 – 2025 | CGPA: 8.5

CERTIFICATIONS

- Microsoft Power BI – Data Visualization & Reporting
- Advanced Excel – Financial Modelling
- Python (Basic)
- NISM Series VIII – Equity Derivatives
- NISM Series V-A – Mutual Fund Distributors

TECHNICAL SKILLS

ERP: SAP S/4HANA, ERPNext, Microsoft Dynamics 365 Business Central, SAP ECC, Tally

Analytics: Power BI, SQL, MySQL, Microsoft Fabric, Advanced Excel, Power Query

Programming: Python, HTML, VBA

AI & Automation: Gemini API, Claude API, OCR, LLM Integration, Prompt Engineering, Codex, Claude Code, Agentic AI

Consulting: Business Analysis, AS-IS/TO-BE Mapping, Gap Analysis, SOP Development, UAT, PMO, MDM, Stakeholder Management
